DISTRIBUTORS: HOW TO USE CIDINET?

The **welcome page** shows the last movies added to the database, with only very general information as you are not logged in.

If you're a member of **EUROPA DISTRIBUTION**, or have subscribed to **CIDINET**, **log yourself in by typing your codes** (*login and password*) in the top right window.

You are entering your CIDINET page.

In the middle right window, your last releases appear. By clicking on « Show all releases » you will be able to see all your company's releases registered in the database, sorted by release date.

Under this window, there is another window called « Next Releases ». If you click on it, you can access the list of all the movies of the database to be released soon (*sorted by release date*).

YOUR DISTRIBUTOR PAGE

You will be able to access it by clicking on your company's name which appears in the **log-in window** (*top right window*).

On this page you will see the **different contact details of your company** which you can edit by clicking on « Edit this page ».

Under this window, you will see your **detailed line-up** including the release date as well as **all the other listed European distributors of the movies.**

You can click on another distributor's name, which will lead you to the same type of page as yours.

FILM PAGE

If you are on your own page, **just click on the movie title to reach its page.**

If you want to see another movie page, you can of course search for it by **typing in the search bar the international, original title or even the director's or producer's name.**

There, on the top of the page will appear the **general information, i.e information that is not specific to one distributor** (*artistic & production details, festival selections...*)

In the **lower section**, you'll find the list of the different distributors sorted by release date. You will be able to see the **data each distributor has added** by clicking on « Distribution data » at the left of the distributor's name. You can see each local poster and release date added without needing to develop each distributor's part. If you want to have a better view of the poster, just click on it, the picture will get bigger.

ADDING CONTENT

On the movie page, there is a button “Edit this film” at the top right of the window. You will then be able to edit all the film’s information, except the original title and of course the specific content of each distributor.

Once you have added the information you want (*local poster, rights you have on the movie, number of copies, release date, information about the different masters available etc.*) you just have to click on « Register » to confirm the changes.

Note on the release date: even if you’re not sure about the release date, don’t forget to check the box “Release date to be announced soon” so that your distribution company can appear at the top of the distributors list.

ADDING A MOVIE

If you want to add a new movie to your line-up, first, of course, search for it in the search bar.

If the film is already registered on the database, click on the title. This will lead you to the film’s profile. Next to the title (on the right), there is a button saying “I distribute this film”. If you want to add that movie to your line-up, just click on this button, this will enable you add content about this film (see adding content section).

If your search yields no result, you will then only have to click on the “Add a movie” button on the top right of the search result page.

REMOVING A MOVIE

If you want to remove a movie from your line-up, you will have to contact the CIDINET coordinator and let him know. For security reasons, it’s impossible for a distributor to directly remove a film from CIDINET.
